$F_a = 2.94 \text{ KgW}$

$F_t = 2.30 \text{ KgW}$

$t \approx 100^{\circ}\text{C}$, $\rho \approx 0.94 \text{ Kg/m}^3$, $V \approx 0.25 \text{ M}^3$

Re-examining Science

重₁視₂科學

Historical, Philosophical, and Sociological Approach to Public Engagement with Science

When science came to the non-Western world, such as East Asia, it was often visualized as something powerful and universal. The theme of this conference is intended to examine this conventional view and to emphasize the democratic nature of science. Following the tradition of IHPST, the second Asian regional conference will bring researchers and educators from the history, philosophy, sociology of science and science education together to exchange ideas and research results. We sincerely invite you to join discussion on engaging the public with science.

Call for Papers

Topics of interest for submission include, but are not limited to:

- Conceptual development in science
- Curriculum and textbooks of science
- Nature of science and scientific inquiry
- Scientific literacy
- Science communication
- Socio-scientific issues and science, technology, and society
- Scientific reasoning and argumentation
- Beliefs, ethics and values of science
- History, philosophy, and sociology of sciences
- Science in Asian contexts
