Regular €220 (early bird)/€250 Student €200/220

**University of Minho**

It's easy to reach the Gualtar Campus of the University of Minho by car or public transportation, such as train from other major Portuguese cities. There is even a direct bus line from Porto Airport (OPO), the nearest international airport to Braga.

Braga has a great selection of hotels of all categories, geographically well distributed across the city. There are plenty of options, near University of Minho or in the city center, from where the university is reachable with a 15 minute walk.
